

Information Capsule

+ We welcome to the team, Ms. Laverne Walker, UNEP Cartagena Convention Secretariat's new Programme Management Officer, who will be leading GEF CReW+ in this executing agency. Welcome!

+ We will be showcasing the most relevant of GEF CReW+ in GEF's IW10 meeting in September. We are curating information from these years of implementation and lessons learned through knowledge management.

Operational Updates

In *Linden, Guyana*, the project will support the network rehabilitation. Through leak reduction and achieving 100% metering, non-revenue water is expected to be reduced by 10%.

In *Honduras* we wrapped up the final designs of the wastewater treatment plant in the Omoa bay. These designs will aid in managing the wastewater from a zone with a high potential for tourism.
