

Information Capsule

- + **We're back in action! Country meetings will begin in February.**
- + **A project extension has been proposed until March 2026, and we are currently receiving feedback from countries on this proposal.**
- + **We want to hear from you! We invite countries that have not yet participated, as well as those that wish to participate again, to join the GEF CReW+ Champions campaign and share their experiences with the project.**

Operational Updates

In December, the GEF CReW+ cooperation agreement was signed with Jamaica. The planned construction work includes improvements to the Innswood WWTP for the MARS Project (Managed Aquifer Recharge System).
